

TO WHOMSOEVER IT MAY CONCERN

Name Saatvika P

Date: 27/11/2024

Age/sex-3 year 5months / Female

ID-700930262

Date of admission-26/11/2024

Diagnosis - Severe Burns (60%) with Acute respiratory failure with Septic Shock

Child named Saatvika P, 3 year 5month old female, is admitted in Aster CMI hospital, Paediatric ICU on 26/11/2024 with diagnosis of Severe Burns (60%) with acute respiratory failure with septic shock. Child is currently on advanced life support in the form of mechanical ventilator, inotropic support, broad spectrum antibiotics.

Child requires multidisciplinary team approach (Paediatric ICU, Plastic surgery, Paediatric Anesthetist, Ophthalmologist). Child requires multiple settings of dressings, multiple settings of skin grafting in operation theatre. She may require renal replacement therapy, immunomodulation therapy in the form of IVIG, prolonged ICU care in isolation room, parenteral nutrition and rehabilitation. Approximate hospital stay would be around 8-10 weeks.

The estimated cost of hospitalization could be approx 8-9 lakhs.
